Re: Recommendation for Approval – Lightning Detection System

The Parks Department requests approval to enter into contract with Turf Products Corp. for the supply and installation of new Lightning Detection Systems for the outdoor recreation facilities.

This purchase includes the trade-in of our two lightning sensors, the purchase of two Strike Guard Lightning Detection Systems, additional equipment, and installation services. As part of this project, the Irwin Park system will be relocated from the house to the barn.

These systems are designed to actively detect lightning within a 20-mile radius and signal alerts when a lightning strike is detected within a 5-mile radius. In addition, the system will automatically signal an "all-clear" alert once it is safe to re-enter outdoor areas.

Our current system is over 10 years old, and the Parks Department has planned and budgeted for its replacement in fiscal year 2025. The trade in value of the existing systems is \$3,000.00. The cost for new equipment and installation is \$102,980.00, resulting in a net project cost of \$99,980.00.

Re: Police Department Relocation

Mr. Zagarenski:

We are pleased to submit the following proposal for the upcoming relocation of the Police Department from Locust Avenue to South Avenue. We will provide materials, labor, and equipment to efficiently and cost-effectively perform the relocation. We will also deliver plastic totes for employees to pack the contents.

We suggest performing the move in four phases.

- First Phase relocating the main office contents from Locust Avenue to South Avenue.
- Second Phase relocation of records and property to South Avenue
- Third Phase delivery of items in storage and relocation of the cert room to South Avenue
- Fourth Phase relocating records from Town Hall to South Avenue.

In the first two phases, a supervisor from our management staff will be on site for the entire process. The last two phases, which are smaller moves, will not require a supervisor.

We will assist in providing a seating plan with numbers and ensure all items are marked before the start of the move. We will also place placards at the destination to ensure items are placed correctly.

We look forward to the opportunity to work with you on this relocation project.

Sincerely,

Gideon Asemnor

Re: East Avenue (SR 106) Sidewalk Improvements

Main Street (SR 124) to New Norwalk Road (SR 123)

Dear Mr. Mann:

Chris DeAngelis, PE LLC is pleased to provide this proposal for providing professional engineering services for the subject project. The project involves the reconstruction of existing asphalt sidewalks along the north side of East Avenue which will be upgraded to 5-foot wide concrete walks for approximately 2,900 feet of roadway. On the south side of the street there is approximately 1,600 feet of existing sidewalk to be upgraded between Main Street and Summer Street. No new sidewalks are planned to be created at this time, although new ADA (Americans with Disabilities Act) compliant curb ramps will need to be installed at existing street crossings. See Figure A for approximate project limits.

Our scope of services shall consist of the following tasks:

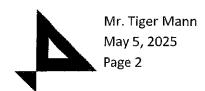

Task 1 — Existing Conditions Survey

We shall retain the services of Shevlin Land Surveying LLC for providing a topographic survey of existing conditions along the project route (Figure A). Horizontal and Vertical Accuracy shall conform to A-2 and T-2 requirements, respectively. Contours shall be depicted at 1-foot intervals. Street and boundary line information shall be shown on both sides of the road. Surface utility features shall be shown where visible, however, below-grade utility lines are not included.

<u>Task 2 – Final Design</u>

We shall prepare a plan for the sidewalk improvements conforming to current CDOT and ADA requirements. Site plans shall generally be shown at 20-scale although some areas of special concern

203.330.8701 • WWW.CD-ENGINEERS.COM

may be shown at 10-scale. We assume that no significant changes to the existing curb lines, striping patterns, traffic signals or drainage structures will be necessary.

Preliminary plans and details shall be provided for your review followed by a site walk to discuss the project. Pending the site walk and comment period, final design plans and details shall be provided for submission to CDOT. We shall use CDOT standard ramp details at intersection where possible. Custom ramp details shall only be provided if there is no available applicable CDOT standard for a particular location.

Task 3 - Meetings

We shall meet with Town and State (CDOT) officials on site or virtually (i.e. Zoom or Teams) as requested during the design process. We shall provide a brief summary of each meeting for your files and make changes to the plans as requested by CDOT.

Assumptions & Exclusions

- No survey stake-out or As-Built services are included;
- We assume the existing roadway will remain in place with only minor changes to the existing curb alignment, drainage system, cross walk striping, etc.;
- We assume that no work will occur within any Wetlands or upland review area;
- Traffic study/analysis is not included;
- The design of utility services/relocation is not included other than minor modifications to existing drainage structures;
- Bidding and construction administration/inspection will be provided by the Town;
- No permitting with Town Planning & Zoning or ZBA Commission(s) is required;

Fee Schedule

Our total fee to provide the services as noted above is estimated to be \$34,500 as follows:

	Amount
Task 1 – Ex. Cond. Survey	\$19,500
Task 2 - Final Design	\$ 12,000
Task 3 – Meetings	3,000
Total Estimated Fee	\$ 34,500

Additional work shall be charged according to the attached hourly rate schedule. Direct costs such as reproduction, postage, etc. will be billed directly without any additional markup. Invoices will be generated monthly for services performed during the previous month and shall be due within 30 days from the date of the invoice. Any work not included in the above-noted tasks may be considered Additional Services. Any work after non-business hours shall be considered Additional Services.

If you find this proposal acceptable, please indicate by signing below and returning one (1) copy to this office. We will consider a signed copy of this proposal as our notice to proceed.

Thank you for considering Chris DeAngelis, PE, LLC for this project. If you have any questions regarding this proposal, please do not hesitate to contact me. Thank you. Sincerely,

Chris DeAngelis, PE

TESTING SERVICES AGREEMENT

This agreement for testing services, hereinafter Agreement, made this 13th day of 100, 2025 by and between the South Central Chiefs of Police Association, Inc., a corporation in the State of Connecticut, hereinafter SCCoP, and the Town of New Canaan, hereinafter Municipality.

WHEREAS, the Municipality has requested that the SCCoP assist with police personnel testing; and

The SCCoP provides this service on the terms set forth in this agreement; and

The Municipality agrees to retain the services of the SCCoP under the terms of this agreement.

THEREFORE, it is agreed that:

The Municipality engages SCCoP to provide testing services for the position of Sergeant in accordance with the attached scope of services.

The Municipality shall provide the SCCoP with a copy of all documents relevant to police promotional testing, including, as applicable, the municipal charter, labor contract, and personnel policies. In addition, the Municipality shall provide information needed regarding testing components, testing weights, and passing scores.

The SCCoP, working with the Municipality, shall select the written examination instrument based upon information gathered concerning the job for which the examination is being conducted.

The SCCoP, in its sole discretion, shall determine the number and identity of persons who serve on any screening committee, assessment panel or oral board panel used during the process. The SCCoP shall work with the Municipality to identify the site for the examination.

The SCCoP and its staff will communicate with candidates during the process. The Municipality will be responsible for all communications after the SCCoP has completed the process.

The Municipality, in its sole discretion, shall make all appointments following the completion of the respective testing processes.

1

 	 	 	 	 . .	 	 	W. J	

All documents related to the testing process shall be the property of the SCCoP. The Municipality shall be provided with the final letter of recommended candidates.

Any related expenses for the promotional examination, including costs for luncheon expenses for the oral board or for any additional costs that may be incurred for post-exam appeals or hearings, shall also be the responsibility of the Municipality.

This Agreement constitutes the entire understanding of the parties and no other representations or agreements shall modify the terms herein nor shall any relationship other than a contractual relationship be created. No provision shall be amended or waived unless mutually agreed to by both parties in writing.

The Agreement shall be interpreted and governed by the laws of the State of Connecticut.

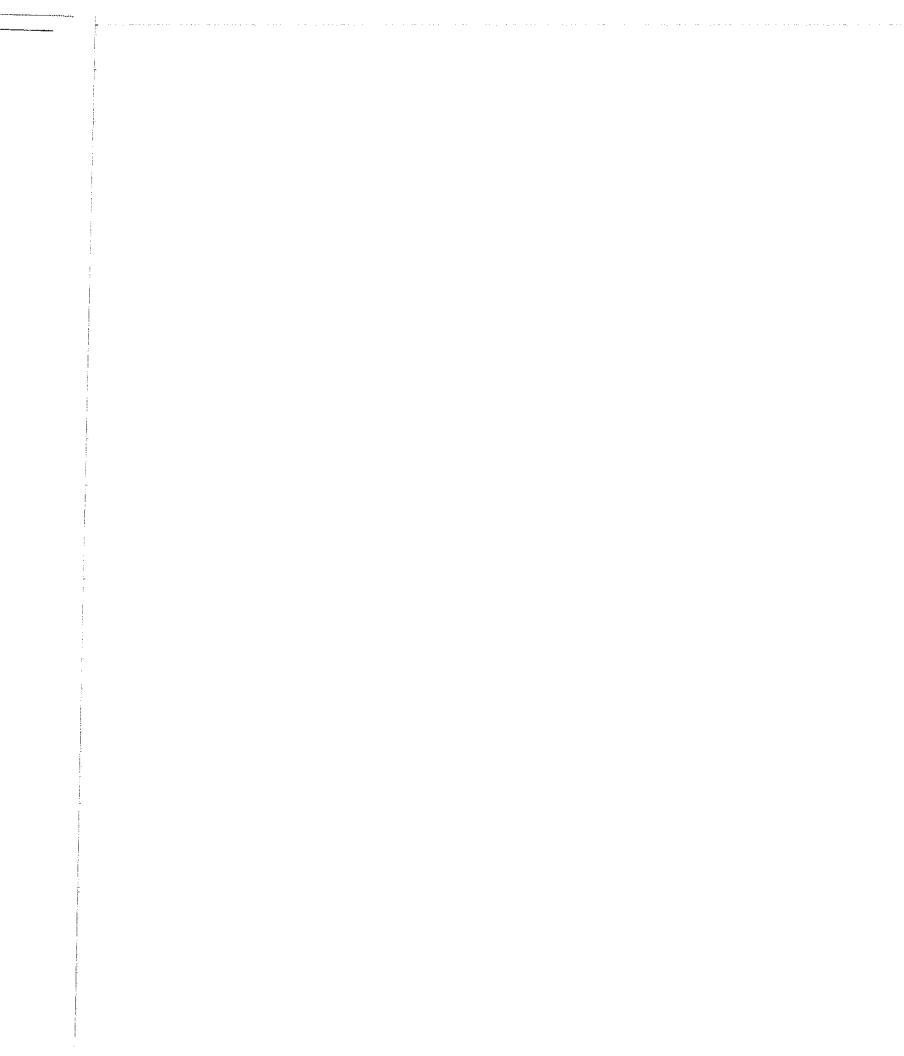

Contractor shall indemnify and hold the Municipality, its officers, agents, servants and employees, harmless from and against any and all claims, damages, losses and expenses, including but not limited to reasonable attorneys' fees, to the extent arising out of or resulting from the wrongful or negligent acts, errors or omissions in the performance of the Work by the Contractor, its officers, agents, servants and employees.

The Agreement may be terminated by either party upon thirty days written notice to the other party. The Municipality shall be responsible to pay reasonable costs incurred by the SCCoP prior to notice of termination. The SCCoP shall have no further obligation.

SCOPE OF SERVICE

Review documents related to the police department and the position of Sergeant, which may include mission statement, job description, job analysis, pertinent sections of the labor agreement and/or personnel rules, as applicable, and any other document that may relate to the conduct of a police promotional examination for the position of Sergeant.

Establish a timetable for the work to be performed that meets the needs of both parties.

Distribute a recommended reading list to all candidates in preparation for the examination. The reading list shall be distributed according to a mutually agreed upon time schedule.

Administer the written examination and prepare scoring materials.

Prepare for the oral examination phase, including date, location, panelists, notifications, and support materials. The panel shall consist of persons at least one rank above the rank for which the test is being conducted unless otherwise set by the municipality or contract. The panelists shall be selected without the knowledge of the officials of the municipality.

The oral examination questions will be chosen by the panelists in conjunction with the SCCoP. The same set of questions will be asked of all candidates.

Scoring will be done using the adopted scoring system. The scores will be tabulated and verified by SCCoP staff.

Oral examination score sheets will be prepared for all candidates. A letter with the examination results will be sent to the Municipality.

Overall examination score sheets, including performance evaluation results and seniority points, if applicable, will also be prepared for each candidate and an overall list will be sent to the Municipality.

Correspondence thanking the oral board examiners on behalf of the Municipality will be forwarded.
